**RECOMMENDED MEMORY CARDS**

For optimal performance of the X1D II 50C, the following SD memory cards are recommended to use:

- UHS-II, 260MB/s or faster

Avoid using Micro SD/TF memory cards with SD card sets. Some Sony high-speed SF-G UHS-II SD 300MB/s memory cards might have poor compatibility, and therefore, might not be able to write image data properly.
